THE REVOLUTION IS NOW COMING!

Racor PRO = sleeve nut + reducing plug
The universal solution that will change your life.

ALWAYS THE INSTALLER IN MIND

Racor PRO IS UNIVERSAL,
EFFICIENT, SAFE AND
INNOVATIVE.

We can't avoid it, it's in our
DNA. And it is also patented.

ONE UNION LESS, + ECONOMY + SAFETY

ONE LESS GASKET MEANS
REDUCING THE LIKELIHOOD
OF LEAKAGE BY 33%.
DON'T RISK!

*"Simplifies, great innovation. A big improvement for our future installations. The **speed of assembly** significantly speeds up the work in terms of execution times and the reduction sealant simplifies and **minimises potential leakage points**. In addition, no more need for extra tightening, Teflon or any sealing liquid. Finally, the tightening and the special tools for the connection to the radiator cap are no longer necessary. A very positive change for our work!"*
